

My experience with Alwyn Cream has been completely positive. I tried it on my face first and it immediately felt cool and refreshing. As it is applied, it feels as if my skin is drinking it in - I love that feeling! It feels natural and fresh and makes me want to use it every day.

It felt so good on my face, I tried it on my arms and was thrilled with how my skin welcomed the moisturizing treatment.

Years ago, a dermatologist told me that I have good skin and it needs taking care of. I became frustrated as I wasn't able to use just any kind of product. I am 66 years old and have never liked the feeling of creams or makeup on my face. I usually end up having to wipe things right off. Anything I used felt like a layer of something is on my skin and I can't stand it - it has to come off.

That's not the case with Alwyn Cream. Finding out about Alwyn Cream is a dream come true for this old lady skin!
