Subject: Re: Alwyn Cream

Hi Mark-

I wanted to give you some feedback as we've been using the Alwyn Cream now for a few months. All I can say is this: It has been fabulous! Noelle has had a non-healing 4-5" wound on her foot/shin for 7 years. We have tried countless things to heal this: skin grafts for six months, steroids, Manucka honey, and Egyptian Magic. While the skin grafts helped it tremendously, as soon as we stopped, the wound came back as big as it was before.

However, over the past few months since using the Alwyn Cream, we have seen her wound drastically decrease in size. Her wound now is about 1" big. I don't know what is in that cream, but whatever it is, it is working!!!!

What a huge blessing this is for Noelle and us. Here is a question for you: Is there any way that we can get more of this. We have only a tiny bit left and desperately want/need to continue to use it.

Please let us know. Many thanks again for letting us try this. It's been phenomenal.

Choosing joy,
Suzy Hermes
